## Free AI SEO Audit – A £1k “Agency Standard” SEO Audit for Free

For anyone looking to improve their ranking in Google, our AI SEO Audit Tool is the solution.

It provides a deep-dive benchmark analysis against relevant competitors. Comparing keywords, content, technical SEO, and backlinks. The result is a 35+ page report of analysis and practical, prioritized action steps.

This is a 10X improvement over the current free SEO audit tools and easily rivals a £1k+ agency SEO audit.

### Why is it 10X Better?

1. The AI Tool takes the time to understand your business, so all of the competitors and analysis is highly relevant to you.
2. Most free audits tools focus on one thing, we cover all the 4 main pillars of SEO, including backlinks, keywords, content and tech.
3. This is a comprehensive report. We look at all your pages and all your keywords. Recommendations and actionable steps are tailored for your business.

### Who Made This Report?

Founded in 2010, Atomic Leap is a performance marketing agency based in central Bristol and focussed on developing bespoke tools and applying a scientific approach to digital marketing.

### Try it For Yourself

*"Really great tool" – Marketing Manager*

*"A really excellent, clearly written, readable report, perfect for a layperson or director of a business. The results of the analysis were not actually a surprise to us, and confirmed our own suspicions, but the diagnosis was very specific, as were the conclusions and recommendations for remedial action." – Business Owner*
